JOURNAL

OF

AGRICULTURE.

VOLUME XII.

(January–June, 1916.)

GENERAL INDEX.

A.

Acetylene refuse as soil-dressing, 160.
Agriculture abroad, 164.
Agricultural shows, forthcoming, 54, 238, 302.
All about an apple, 325.
Amended blackleg regulations, 141.
America and butter exports, 81.
Appeal to English farmers, 164.
Apple Show, Patriotic National, 326.
Apiary, the (monthly notes), 69, 155, 231, 317, 401, 478.
Arsenic and arsenites, 409.
Artichokes, 492.

B.

Bacon and hams, home-curing, 409.
Bees, cross-mating of, 495.
Black cricket, control of the, 187.
Blackleg regulations, amended, 141.
Blindness in sheep, temporary, 240.
Board of Agriculture, 55, 219.
Bottle-fed lambs scouring, 163.
Branching-headed rye-grass, 122.
Breeding, a study in, 190.
Breeding-sows, treatment of, 412.
Butter and margarine, 414.
Butter, salting down, 491.
Butter for winter use, 161.
Buttercups, wild, eradicating, 493.
Buttermilk, separation of, in churning, 244.

C.

Cabbage pests, control of, 161.
Californian thistle (identification), 180.
Canker in horse, 411.
Calves, warts on, 160.
Canterbury Seed-growers' Association, 291.
Castration, holding for, 77.
Cereals, the world's, 333.
Certificate-of-record bulls, 356, 451.
Certificate-of-record testing, 45, 89, 132.
Chaff-mite, the, 372.
Chemical guide chart for fruitgrowers, a, 194.
Cider vinegar, recipe for, 80.
Circular white patch in tomatoes, 388.
Clayton, John Greenwood, 104.
Clover, improvement of red, 293.
Control of the New Zealand flax-grub, 124, 446.
Conversion of fern-land into grass, 421.
Combined spraying, 193.
Commercial intelligence, 81, 168, 247, 332, 414, 498.
Co-operative handling of grain in Canada, 216.
Cow-testing, certificate-of-record, 45, 89, 132.
Cow-testing apparatus, 77.
Cow, self-sucking, 80.
Cow's teat, sores on, 79.
Crops, acreage under, 83.
Cropping burnt-off fern-land, 77.

Cropping questions, 329.
Cross-fertilizing of plum-trees, 160.
Cultivation: tillage operations and implements, 19.
Cysts in sheep, 412.

D.

Dairy, ventilation of, 328.
Danthonia, 78, 80.
Demonstrations at Arataki, 278.
Dying of young fruit-trees, the, 112.

E.

Earwigs, control of, 243.
Eggs, imported, in United States, 82.
Eggs, stamping of imported, 247.
Egyptian phosphate-deposits, 489.
Egyptian phosphate property for sale, 414.
Ensilage, 44.
Ensilage notes, 292.
Eucalypts for fencing-timber, 253.
Explosives and gorse, 410.
Exports, New Zealand to Britain, 84, 171, 249, 335, 417.

F.

Facial eczema in sheep, 386.
Failure of conception in cow, 75.
Fairy rings, destroying, 330.
Farm, the (monthly notes), 56, 142, 220, 305, 392.
Farm garden, the, 71, 156, 233, 319, 404, 486.
Farm implements, improving, 39.
Fern-land, conversion of, into grass, 421.
Fertilizers, importation of, 368.
Fits of excitement in cow, 244.
Flax-grub, control of the New Zealand, 124, 446.
Foals, hand-rearing of, 76.
Foal's navel, infection through, 328.
Foot-rot in sheep, treatment of, 330, 413.
Forage-cropping on the Hauraki Plains, 204.
Forestry association, proposed, 391.
Frost and wheat: the damaged Canterbury crops, 1.
Frozen meat and France, 247.
Fruit-breeding work in Minnesota, 165.
Fruit-export conditions, 168.
Fruitgrowers in Canada, co-operation among, 165.
Fruit industry, the: varieties for export, &c., 205.
Fruit-trees attacked by girdler borer, 76.
Fruit-trees, dying of young, 112.
Fruit-trees, budding of, 491.
Fruit varieties for export and local markets, 205.
Funkias, how to grow, 162.

G.

Goat's-rue (*Galega officinalis*), 125.
Grass-grub, control of, 494.
Grass-grub, pigs and control of, 466.
Grass-pea, the, 461.
Grass-seed and small birds, 496.
Grass-seeding bag, 141.
Grassing drained peat swamp, 327.
Greengage-trees, 162.
Guernseys, 41.
Gum land, liming, 329.
Gum lands, soft limestone on the, 10.

H.

Hauraki Plains, forage cropping on the, 204.
Hedge for road-line, 329.
Hemp and tow grading returns, 88, 174, 252, 338, 420, 502.
Honey, poisonous, 494.
Honey, pollen-grains as source-indicators of, 279.
Hop-market, the, 333.
Horses, form of nerve derangement in, 364.
Horse-owners, veterinary notes for, 464.
Hoven in lambs, 76.
Hydrometer, use of, with honey, 78.

I.

Importation of fertilizers, 368.
Improving farm implements, 39.
Improvement of red clover, 293.

J.

John Greenwood Clayton, 104.

K.

Kea pest, controlling the, 494.

L

Lambing percentages, 141.
Lampas in horses, 410.
Laurels, growing cuttings of, 162.
Lemon-fruit, setting of, 331.
Lime, method of applying, 495.
Lime for pigs, 77.
Lime and magnesia in New Zealand soils, 47.

Limestone (burning, &c.), 411.
Liming gum land, 329.
Liming: principles and practice, 339.
London market values, 85, 172, 250, 336, 418, 500.
London wool-sales, 332, 414, 498.
Lotus major and cow-grass for seed, 241.
Lucerne, a Moumahaki field, 456.
Lucerne at Burnham, 458.
Lucerne-cultivation (rigid-tine cultivator), 202.
Lucerne on gravel, 110.
Lucerne-growing at Sumner, 285.
Lucerne management in Poverty Bay, 459.
Lucerne in orchards, 494.
Lucerne root-fungus, 492.
Lucerne-sowing in Canterbury. 78.

M.

Macrocarpa for posts, 163.
Mangrove swamps, reclaiming, 330.
Margarine and butter, 414.
Meat-freezing works in New Zealand, 248, 332.
Meat, sale of, 410.
Milk-fever, 409.
Milk-testing, 241.
Milk-thistle (identification), 175.
Millet as green manure, 492.
Molasses with hay, 413.
Molasses and stock-feeding, 493.

N.

Nerve derangement in horses, notes on a form of, 364.
New Zealand exhibit at New York, 333.
New Zealand sheep at San Francisco, 135.
New Zealand trade with San Francisco and Vancouver, 86.
Nodding-thistle (identification), 175.
Noxious weeds, spray for, 79.

O.

Orchard, the (monthly notes), 62, 148, 225, 309, 396.

P.

Palisade-worm in horse, 327.
Papa rock as a soil-dressing, 303.
Paspalum, growing of, 246.
Passion-fruit, bearing of, 246.
Pasteurization of milk for cheese-making, 440.
Patriotic National Apple Show, 326.
Pea in cow's teat, 161.
Phosphates and lime, 217.
Phosphate, Egyptian deposits, 489.
Phosphate, Egyptian, property for sale, 414.
Phosphorized pollard, 246.
Pig-feeding, 75.
Pigs, dying of, 245.
Pigs and grass-grub control, 466.
Plant-selection and quick propagation, 467.
Plantains (seed identification), 295.
Plum-rust, 411.
Poa annua, a new type of, 110.
Poisonous honey, 494.
Pollen-grains as source-indicators of honey, 279.
Poor clay land: danthonia, 78.
Potato-seed, selection of, 130.
Potatoes, storage of, 245.
Poultry-feeding without wheat (the Milton test), 138, 389, 468.
Poultry-run, the (monthly notes), 65, 151, 227, 313, 398, 481.
Pricking of horse's foot, 30.

Q.

Qualified veterinary surgeons: New Zealand list, 407.
Quarantine, stock in, 87, 123, 251, 337 419, 501.

R.

Radium-treated soil and plant-growth, 167.
Raspberries, growing of, 241.
Ratstail-grass, eradicating, 496.
Red clover at Ruakura, 212.
Rib-grass (seed identification), 295.
Ripe-rot of stone-fruits, 214.
Roots, treatment of, for pig-feed, 493.
Rye-corn straw for thatching, 196.
Rye-grass, branching-headed, 122.

S.

Sale of meat, 410.
Saltpetre from India, importation of, 332.
Scales on lemon, 413.
Scientific manuring, 391.
Sea-soaked land, treatment of, 243.
Selection of potato-seed, 130.
Seeds and their identification (bracted plantain, greater plantain, large-leaved plantain, shore plantain, rib-grass), 295.
Seed-testing by the Department, 416.
Sheep in New Zealand, 288.
Sheep, New Zealand, at San Francisco, 135.
Sheep, treating scald in, 331.
Sheep, treatment of foot-rot in, 330, 413.
Sheep, tutu poisoning of, 243.
Shelter-belt for farm, 331.

Shelter-trees on swamp land, 242.
Shows, dates of agricultural, 54, 169, 238, 302, 408, 496.
Slugs taking young rape, 80.
Skim-milk, tanks for, 410.
Small birds and grass-seed, 410.
Smutty oats, feeding of, 161.
Soda-bluestone spraying compound, 328.
Soft limestone on the gum lands, 10.
Spear thistle (weeds identification), 175.
Speying of heifers, 241.
Spraying, combined, 193.
Stock exported, 87, 173, 251, 337, 419, 501.
Stony lands of Canterbury, the, 100.
Strawberry-culture, 13.
Study in breeding, a, 190.
Sucking-pigs, mortality among, 330.
Sulphide of iron for spraying, 412.
Sulphur and pigs, 245.
Summer pastures, 46.
Sunflowers, 162.
Swamp-land management, 242.
Sweet clover (*Melilotus alba*), 40.
Swelling on neck of heifers, 244.

T.

Tanks for skim-milk, 410.
Testing, certificate-of-record, 45, 89, 132.
Thatching, rye-corn straw for, 196.
Thistles (weeds identification), 175.
Tillage of a commercial orchard, 106.
Tomato-fruit diseases, 198
"Tree-lucerne" for hedge shelter, 245.
Trees for reservoir protection, 163.
Turnip-flavour in milk: observations at Weraroa, 380.
Tutu poisoning of sheep, 243.

U.

Unthrifty calves with cough, 162.

V.

Ventilation of dairy, 328.
Veterinary notes for horse-owners, 464.
Vine, diseases of the, 282.

W.

Warts on calves, 160.
Wattle and other hedges, 495.
Water-supply on the farm, 361.
Weeds and their identification, 32, 175, 381.
  Capeweed, 33.
  Hawkbit, 37.
  Hawkweed, 35.
  Californian thistle, 175.
  Milk thistle, 175.
  Nodding-thistle, 175.
  Spear thistle, 175.
  Winged thistle, 157.
  Woolly-headed thistle, 175.
  Viper's bugloss, 381.
  Inkweed, 383.
Wheat and frost, 1.
Wheat and oats, estimated yield of, 120.
Willows, killing with sulphuric acid, 491.
Wind trouble in horse, 328.
Winged thistle (weeds identification), 175.
Wood-lice in hives, 495.
Woolly-headed thistle (weeds identification), 175.
Work for the coming month, 56, 142, 220, 305, 392, 472.

ILLUSTRATIONS.

Good Country: Banks Peninsula: Frontispiece.

Page

Frost and Wheat—
- Wheat-heads frosted in Flowering Stage and devoid of Kernels .. 2
- Uninjured Heads .. 3
- Dissected Wheat-flowers .. 4
- Wheat-spikelets .. 5
- Heads with Upper Portions frosted and Lower Parts developing Grain .. 6
- Heads with a Few Grains developing, the rest frosted .. 7
- Heads frosted when still enclosed in Sheath-leaf, Showing how Proper Development has been checked .. 9

Bringing in the Clip .. 12

Strawberry-culture—
- Strawberry properly and improperly planted .. 14
- Small Hand-tool for cultivating around Plants .. 16
- Implement for Hand-cultivating between Rows .. 16
- Picking-box, to hold Four Chips .. 17
- Showing Method of Training Runners between Alternate Rows .. 18

Cultivation—
- Double-disk Drill .. 26
- Subsoil Packer .. 27
- Subsurface Packer .. 28

Weeds and their Identification—
- Plant of Capeweed .. 32
- Capeweed .. 33
- Achenes of Capeweed .. 34
- Plant of Hawkweed .. 35
- Hawkweed .. 36
- Achenes of Hawkweed .. 36
- Plant of Hawkbit .. 37
- Hawkbit .. 38
- Achenes of Hawkbit .. 38

Guernseys—
- Dairymaid of Pinehurst .. 42
- Fernleaf of the Glen .. 42
- Glencoe's Bopeep .. 43
- Imp. Hayes Cherub II .. 43

Certificate-of-Record Testing .. 45
- Lady of Collingwood .. 45

Chicken Brooder House and Runs, Ruakura .. 67

Harvesting in Marlborough: Frontispiece ..

Certificate-of-Record Testing in 1915—
- Manor Beets Daughter II of Ashlynn .. 92
- Alexandra of Waipapa .. 92
- Madam Mayflower .. 96

The Stony Lands of Canterbury—
- Boulders and Turnips .. 100
- Cocksfoot-field, showing Boulder-strewn Surface .. 101
- The same Cocksfoot-field after the Boulders had been swept into Rows by the Grader .. 102
- Headland of the same Field .. 103

Wallaceville Veterinary Laboratory .. 105

Tillage of a Commercial Orchard .. 106
- Special Orchard-harness .. 107

An Up-to-date Motor-plough .. 109

Page

Lucerne in Gravel—
Lucerne growing in Bed of Flaxbourne River 111
Another View of the Lucerne on River Gravel 111
Dying of Young Fruit-trees—
Fig. 1.—Four Young Apple-trees killed by Sour-sap 116
Fig. 2.—Closer View of one of the Four Trees shown in Fig. 1 .. 117
Fig. 3.—Junction of the Primary Branches with the Stem of the Tree shown in Fig. 2 118
Branching-headed Rye-grass 123
Goat's-rue (*Galega officinalis*) 127
New Zealand Sheep at Panama Pacific Exhibition—
Quality IV: Mr. C. H. Ensor's Champion Corriedale Ram 134
Champion Corriedale Ewe: Mr. C. H. Ensor's Luck Brand 134
Mr. Alfred Matthews's Champion Romney Ram 136
Mr. Perry's Lincoln Rams 137
Grass-seeding Bag made from an Ordinary Sack 141
A Recent View of the Homestead, Ruakura 159
The Stables at Ruakura 170
On the Taieri Plain: Frontispiece.
Weeds and their Identification—
Spear Thistle 177
Nodding-thistle 179
Winged Thistle 181
Male Plant and Creeping Stems of Californian Thistle 183
Milk Thistle 185
Woolly-headed Thistle 186
Phormium Varieties at Weraroa Experimental Farm 189
Threshing Lucerne-seed on the Pakowhai Estate, Poverty Bay 192
Rye-corn Straw for Thatching—
Rye-corn at Ruakura cut green for Thatching 196
Stack of Meadow Hay at Ruakura thatched with Rye-corn Straw .. 197
Tomato-fruit Diseases—
Tomato Black-rot 199
Tomatoes affected with Circular White Patch 200
Renovating a Lucerne-field in Australia with the Sunshine Rigid-tine Cultivator 202
Crop of Rye-corn and Tares, Hauraki Plains 204
Red Clover at Ruakura—
Red Clover coming on for Hay 213
Red-clover Hay in Stack, and next Growth maturing for Seed .. 213
Ripe-rot of Stone-fruits—
Peaches affected with Ripe-rot 214
Nectarine affected with Ripe-rot 215
Winter Spinach—
How Spinach should be grown in Winter 234
Single Plant of Spinach from the Bed shown in Preceding Photo .. 235
Dairy-produce Graders of the Department at Work 239
A fine Specimen of *Eucalyptus Macarthuri* at "Trecarne," Cambridge, Waikato: Frontispiece.
Eucalypts for Fencing-timber—
Eucalypts in the Grounds of Wesley Training College, Auckland .. 257
Eucalypts on the Railway Reserve, Papakura 260
Eucalyptus fastigata on the Railway Reserve at Papakura 263
Eucalyptus Macarthuri felled for Fencing-posts at "Trecarne," Cambridge 265
Large Specimen of *Eucalyptus fastigata* in the Railway Reserve Plantation, Papakura 269
Plantation at Wesley Training College, started in 1906 271
Eucalypts on Mr. J. McCarty's Farm, Claudelands, Waikato, planted in 1881 273
Pollen-grains as Source-indicators of Honey—
Apple (*Pyrus malus*) 279
Red Clover (*Trifolium pratense*) 280
Escallonia (*Escallonia macrantha*) 281
Stacks of Oats at Ruakura thatched with Rye-corn Straw 281
Lucerne-growing at Sumner—
The Cows fed from the School-farm Lucerne Plot 285
Lucerne Plot at School for the Deaf, Sumner 286

Page

Moumahaki selected Red Clover 294
Seeds and their Identification—
Rib-grass (*Plantago lanceolata*) 297
Greater Plantain (*Plantago major*) 297
Rugel's Plantain (*Plantago Rugelii*) 298
Bracted Plantain (*Plantago aristata*) 299
Large-leaved Plantain (*Plantago hirtella*) 301
Shore Plantain (*Plantago coronopus*) 301
Gathering Wine-grapes at Te Kauwhata Horticultural Station 304
Sixteen Thousand Crates of Cheese at Wharf, Wellington 324
Diagram of Apple, showing Constituents 325
New Zealand Exhibit at New York 334
Milking Shorthorns at Weraroa: Frontispiece.
Liming—
A Modern Limestone-grinding Plant 341
An American Portable Limestone-grinder 345
A Good Type of "Star-feed" Distributor of Large Capacity, for Fine Lime 349
Another Good Type of "Star-feed" Machine, for Fine Lime 350
The "Ideal" Distributor—An Effective "Forced Star-feed" Machine.. 351
A good Type of Distributor for Fine Lime, or Rough Lime containing Semi-hard, Smallish Lumps 352
Farmyard-manure Distributor with Liming-attachment 354
The Wallace Distributor 355
Certificate-of-Record Bulls—
Golden Swan 357
Good Luck 357
Longbeach Van Tromp 359
Netherland King 359
Water-supply on the Farm—
A Well-constructed Trough and Surroundings 361
A Good Trough of Simple Wall-construction 362
Well-built-up Wall with Protective Netting at Back.. 362
A Small Spring Fills the Trough 363
Notes on a Form of Nerve Derangement in Horses—
Horse showing Characteristic Exaggerated Form of Stringhalt .. 365
Another Case of Exaggerated Stringhalt 366
The Chaff-mite: Methods of Control—
Female and Male Chaff-mites 373
Bran-stacks covered with Tarpaulins—Carbon-disulphide Fumigation in Process 377
Weeds and their Identification—
Viper's Bugloss (*Echium vulgare*) 382
Inkweed (*Phytolacca octandra*) 384
Display of Margarine and New Zealand Butter at a Liverpool Provision-store 415
Freezers: Frontispiece.
Conversion of Fern-land into Grass—
Typical Natural Fern-land 423
Old Fern Burnt preparatory to either ploughing or Surface-sowing .. 425
Burnt Fern-land ploughed, showing Upturned Underground Stems .. 427
Young Fern in ploughed Land, just coming out of Curl Stage .. 429
Autumn-sown Temporary Pasture, One-year old 431
A Temporary Pasture—Mainly Red Clover 433
General View of a Temporary Pasture (Four Years old) on Fern Country 435
Bush-burn Country (on Hill) reverting into Fern 437
Bush-burn Land reverted to Fern, then burnt and sown, and heavily stocked at Definite Intervals 439
Pasteurization of Milk for Cheesemaking—
Twin Pasteurizing Plant at Pihama Cheese-factory 442
Regenerative Heater fitted for Use of Exhaust Steam 444
Method of dismantling Regenerative Heater for Washing 445
Certificate-of-Record Bulls—
Starbright 452
Colonel Manor of Riverside 453
Paul Pietertje 455
